These original drawings are created on Ampersand Claybord Art Tiles or Ampersand Stampbord. The tiles are white. On some, I create the drawings with various brands and styles of archival pens. I also scratch with a knife to create detail. On others, I paint the tile with India ink, scratch, then add watercolor.

All drawings are sealed on the front with a UV-protecting sealer. Unframed pieces are also sealed on the back.

The pieces with hangers can be worn, but avoid getting them wet.
